

About Us

After almost 35 years as a multi-generational family business, we have made some significant improvements to serve you better!

Since our establishment in 1990, Cabinet Factory has evolved from a small paneling shop off Virginia Beach Blvd called Paneling Factory into a respected name in Hampton Road's cabinets, flooring, and design industry. In 2010, we expanded to our current site on Poplar Hall Dr. The year 2023 marked a significant milestone for us as our store underwent a total renovation, leading to our rebranding as Cabinet Factory. This transformation is a testament to our unwavering dedication to industry advancement and reflects our commitment to excellence as we continually evolve to meet the evolving needs of our clients.
